

**Description:** A modular plug-and-play LED Cove Lighting System designed for any indoor space where indirect ambient lighting is desired. Surface-installed and built with solid state connections for increased durability, the system is guaranteed to offer no dark spots. Manufactured in Canada to your exact measurements and specifications.

## Features:

- ◆ Light Source: monochromatic LED Strip
- ◆ **Modular plug-and-play** system designed to significantly reduce installation time spent by contractors on site
- ◆ **Solid state** connections eliminate the risk of oxidation over time
- ◆ Suitable for **surface installation** for applications like cove lighting or for any indirect lighting applications
- ◆ Five **correlated color temperature options** for the light source
- ◆ All system components carry **certification markings** for the North American market

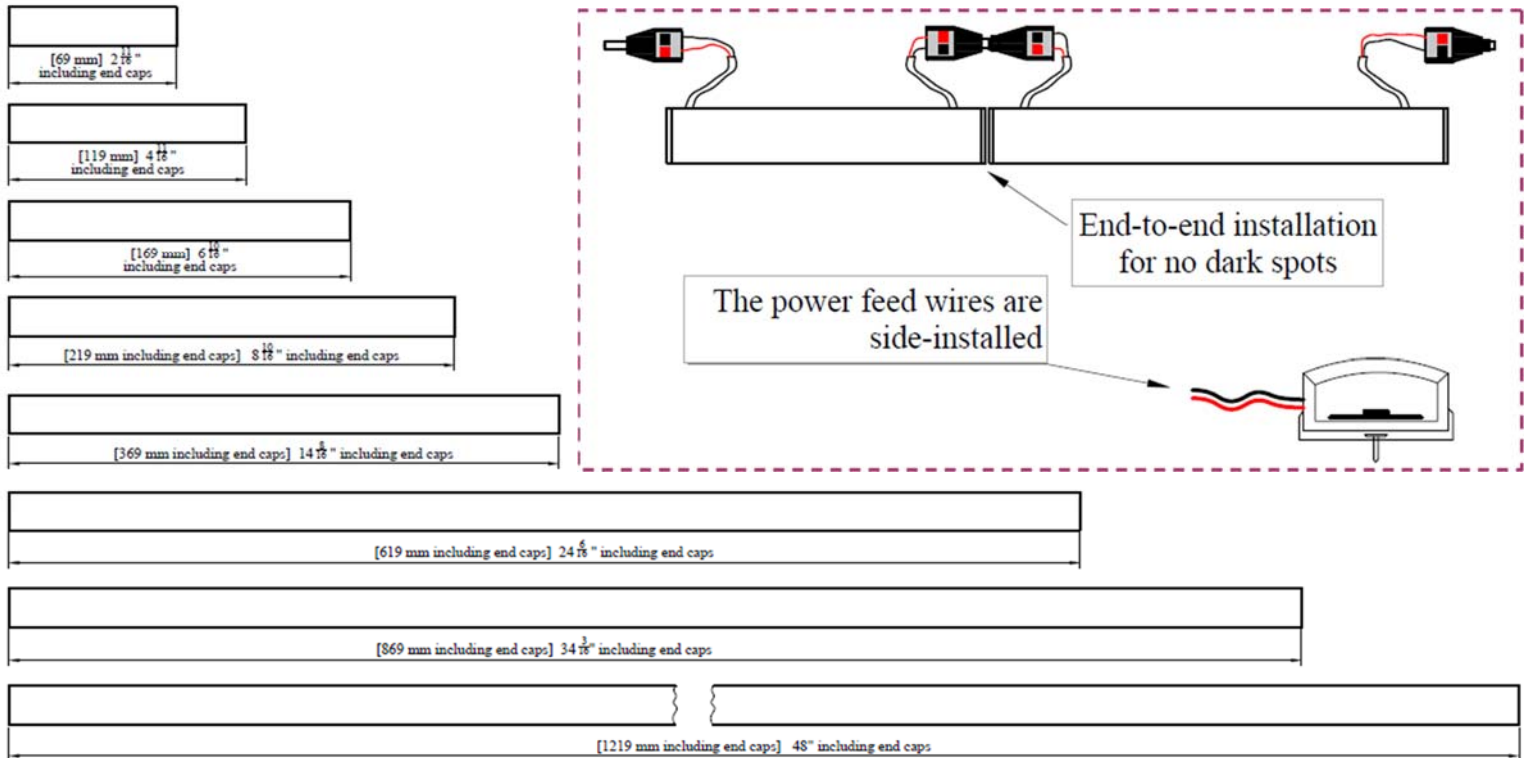

Model	Correlated Colour Temperature (CCT)			Power consumption	Dimming option
DCLM-U	2700K	3000K	3500K	4.5 W/ft	Dimmable
	4000K	6000K			Non-dimmable

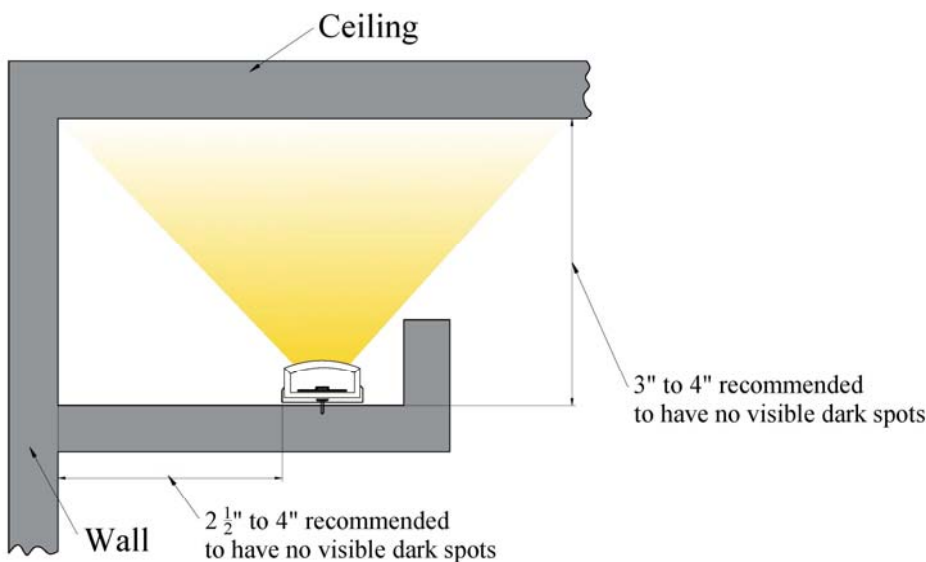

Please indicate the lengths of each straight run in the fields below:

<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

Each cove lighting system is comprised of multiple modules that are available in different lengths:
